**Coverage**  
Europe

### Uk Ku-band spot beam

○ Dish size ● Elevation angle

Home to one of the fastest growing satellite audiences in Europe, the orbital location of 28.2° East is ideal for direct-to-home TV services in the UK and Ireland. Our satellites provide capacity mainly for the transmission of broadcast SD, HD and 3D TV channels and broadband multimedia services to consumer audiences across continental Europe.

**Launch date**

19 December 2000

**Launch vehicle**

Ariane 5

**Design life**

15 years
