

UPCOMING LAUNCH

STARLINK MISSION

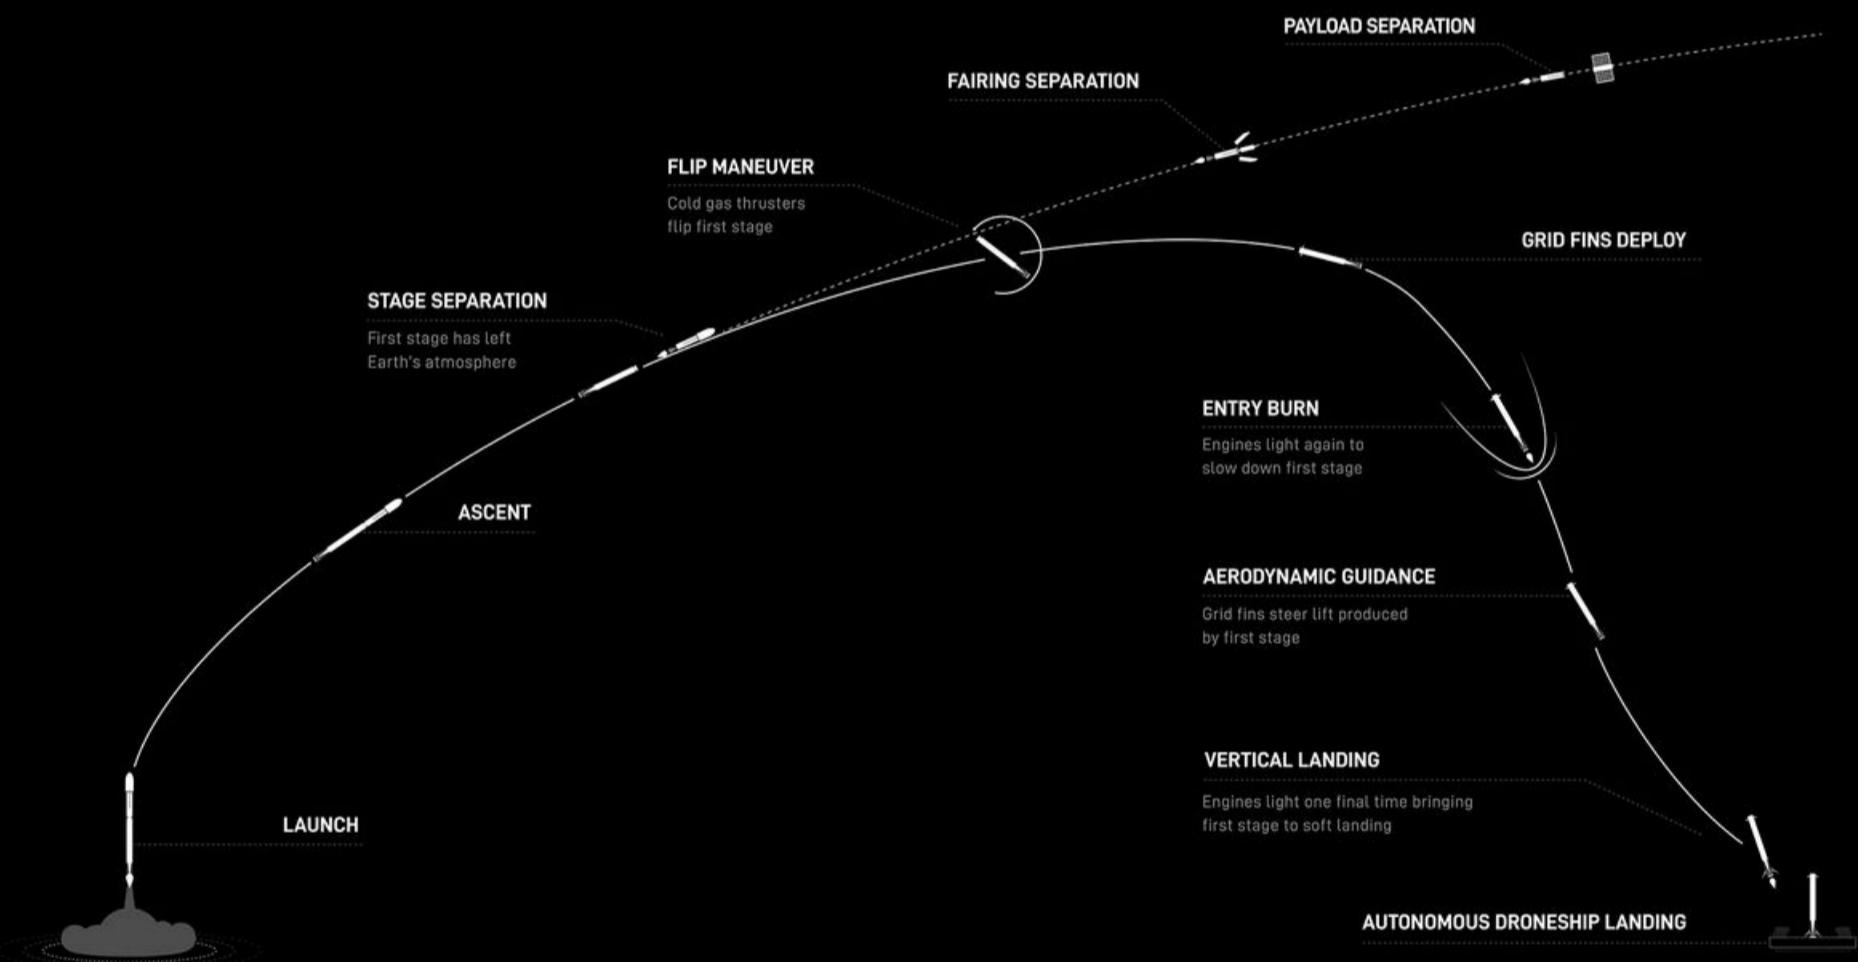

SpaceX is targeting Wednesday, February 14 for a Falcon 9 launch of 22 **Starlink** satellites to low-Earth orbit from Space Launch Complex 4 East (SLC-4E) at Vandenberg Space Force Base in California. Liftoff is targeted for 4:30 p.m. PT, with backup opportunities available until 5:54 p.m. PT. If needed, additional opportunities are also available on Thursday, February 15 starting at 1:34 p.m. PT.

A live webcast of this mission will begin on **X @SpaceX** about five minutes prior to liftoff. **Watch live.**

This is the second flight for the first stage booster supporting this mission, which previously launched one Starlink mission. Following stage separation, the first stage will land on the *Of Course I Still Love You* droneship, which will be stationed in the Pacific Ocean.
