# STARLINK MISSION

WATCH

SpaceX is targeting Thursday, April 18 for a Falcon 9 launch of 23 **Starlink** satellites to low-Earth orbit from Space Launch Complex 40 (SLC-40) at Cape Canaveral Space Force Station in Florida. Liftoff is targeted for 6:40 p.m. ET, with backup opportunities available until 10:40 p.m. ET. If needed, additional opportunities are also available on Friday, April 19 starting at 6:18 p.m. ET.

A live webcast of this mission will begin on **X @SpaceX** about five minutes prior to liftoff. **Watch live.**

This is the seventh flight for the first stage booster supporting this mission, which previously launched ESA Euclid, Ax-2, Ax-3, CRS-30, and two Starlink missions. Following stage separation, the first stage will land on the A Shortfall of Gravitas dronship, which will be stationed in the Atlantic Ocean.
