STARLINK MISSION

WATCH

SpaceX is targeting Friday, June 13 for a Falcon 9 launch of 23 **Starlink** satellites, including 13 with **Direct to Cell** capabilities, to low-Earth orbit from Space Launch Complex 40 (SLC-40) at Cape Canaveral Space Force Station in Florida. Liftoff is targeted for 11:21 a.m. ET, with backup opportunities until 11:44 a.m. ET. If needed, additional opportunities are available on Saturday, June 14 starting at 7:18 a.m. ET.

A live webcast of this mission will begin about five minutes prior to liftoff, which you can watch here and on **X @SpaceX**. You can also watch the webcast on the new X TV app.

This will be the 21st flight for the first stage booster supporting this mission, which previously launched Crew-6, SES 03b mPOWER-B, USSF-124, Bluebird 1-5, and 16 Starlink missions. Following stage separation, the first stage will land on the Just Read the Instructions dronship, which will be stationed in the Atlantic Ocean.
