

UPCOMING LAUNCH

NROL-145 MISSION

WATCH

SpaceX is targeting Sunday, April 20 for a Falcon 9 launch of the NROL-145 mission from Space Launch Complex 4 East (SLC-4E) at Vandenberg Space Force Base in California. Liftoff is targeted for 5:29 a.m. PT. If needed, a backup opportunity is available on Monday, April 21 starting at 5:08 a.m. PT.

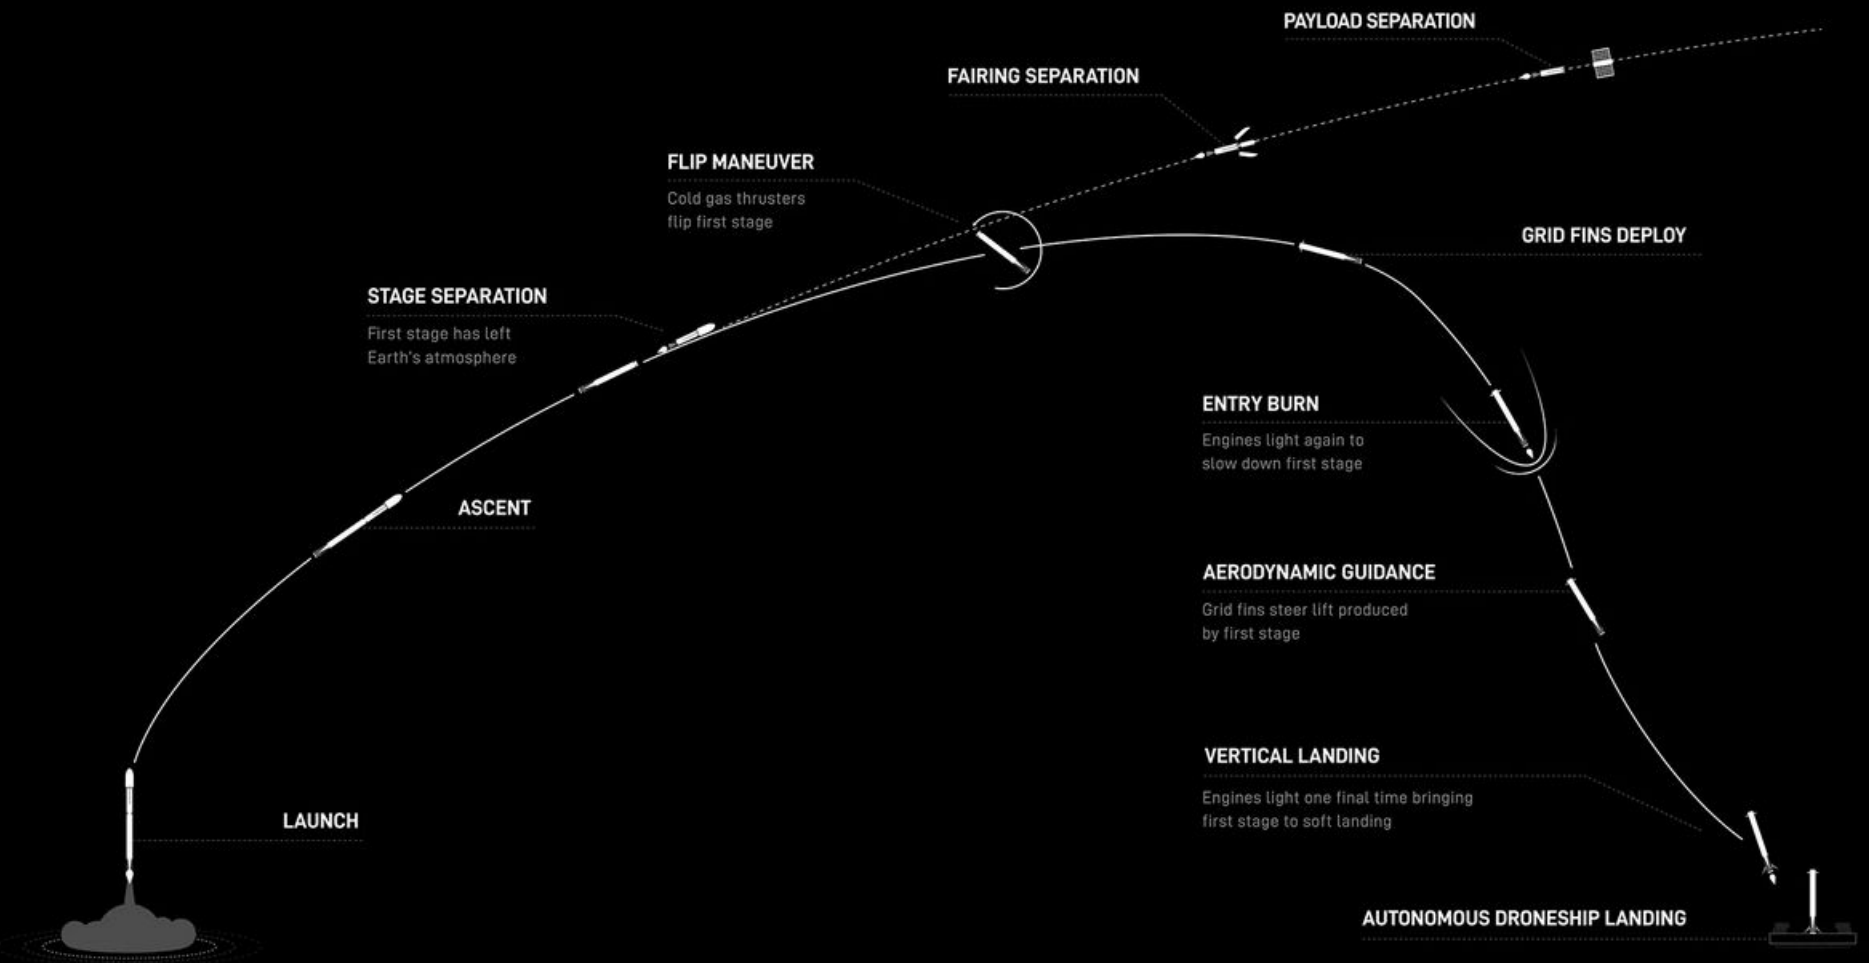

A live webcast of this mission will begin about 10 minutes prior to liftoff, which you can watch here and on **X @SpaceX**. You can also watch the webcast on the new X TV app.

This is the 12th flight for the first stage booster supporting this mission, which previously launched USSF-62, OneWeb Launch 20, and nine Starlink missions. Following stage separation, the first stage will land on the Of Course I Still Love You dronship, which will be stationed in the Pacific Ocean.

There is the possibility that residents of Santa Barbara, San Luis Obispo, and Ventura counties may hear **one or more sonic booms** during the launch, but what residents experience will depend on weather and other conditions.
