

UPCOMING LAUNCH

STARLINK MISSION

WATCH

SpaceX is targeting Thursday, April 24 for a Falcon 9 launch of 28 **Starlink** satellites to low-Earth orbit from Space Launch Complex 40 (SLC-40) at Cape Canaveral Space Force Station in Florida. Launch is targeted for 9:52 p.m. ET, with backup opportunities available until 1:28 a.m. ET on Friday, April 25. If needed, additional opportunities are also available on Friday, April 25 starting at 9:55 p.m. ET.

A live webcast of this mission will begin about five minutes prior to liftoff, which you can watch here and on **X @SpaceX**. You can also watch the webcast on the new X TV app.

This is the 23rd flight for the first stage booster supporting this mission, which previously launched CRS-24, Eutelsat HOTBIRD 13F, OneWeb 1, SES-18 and SES-19, and 18 Starlink missions. Following stage separation, the first stage will land on the A Shortfall of Gravitas dronship, which will be stationed in the Atlantic Ocean.
