

UPCOMING LAUNCH

STARLINK MISSION

WATCH

SpaceX is targeting Saturday, June 28 for a Falcon 9 launch of 26 **Starlink** satellites to low-Earth orbit from Space Launch Complex 4 East (SLC-4E) at Vandenberg Space Force Base in California. Liftoff is targeted for 9:47 a.m. PT, with backup opportunities available until 10:46 a.m. PT. If needed, additional launch opportunities are also available on Sunday, June 29 starting at 9:47 a.m. PT.

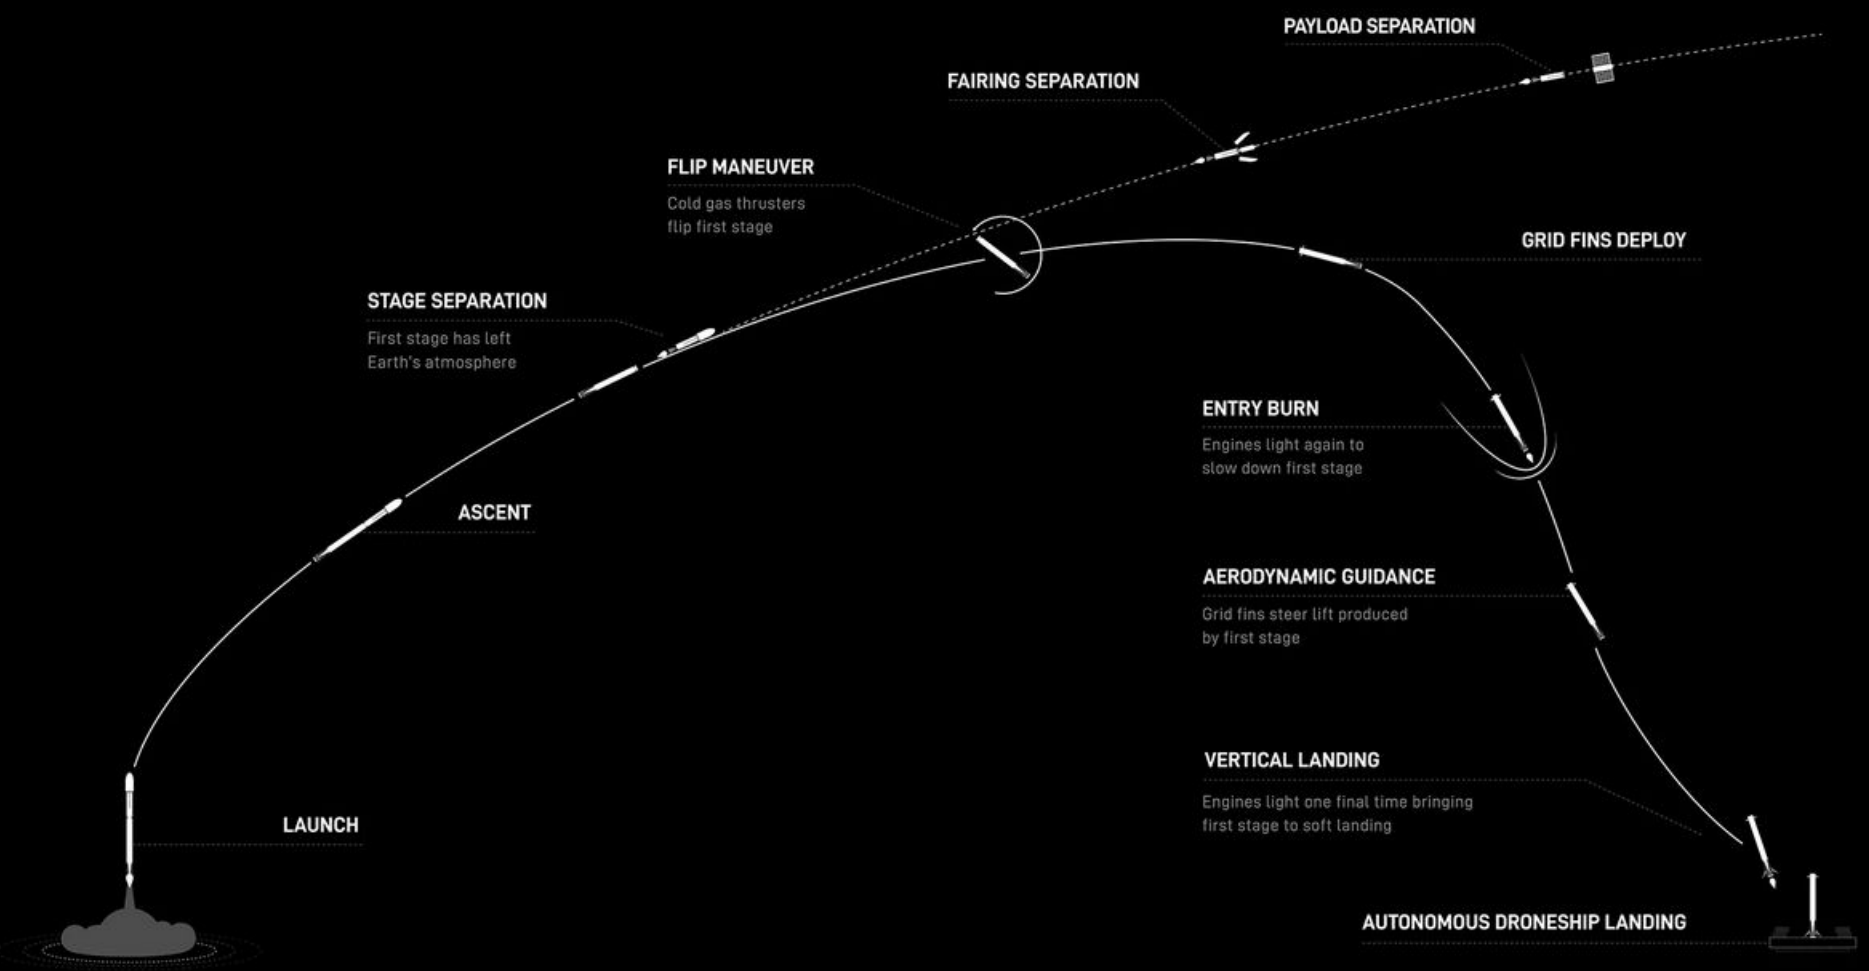

A live webcast of this mission will begin about five minutes prior to liftoff, which you can watch here and on **X @SpaceX**. You can also watch the webcast on the new X TV app.

This will be the eighth flight for the first stage booster supporting this mission, which previously launched NR0L-126, Transporter-12, SPHEREx, NR0L-57 and three Starlink missions. Following stage separation, the first stage will land on the Of Course I Still Love You droneship, which will be stationed in the Pacific Ocean.

There is the possibility that residents of Santa Barbara, San Luis Obispo, and Ventura counties may hear **one or more sonic booms** during the launch, but what residents experience will depend on weather and other conditions.
