

UPCOMING LAUNCH

STARLINK MISSION

WATCH

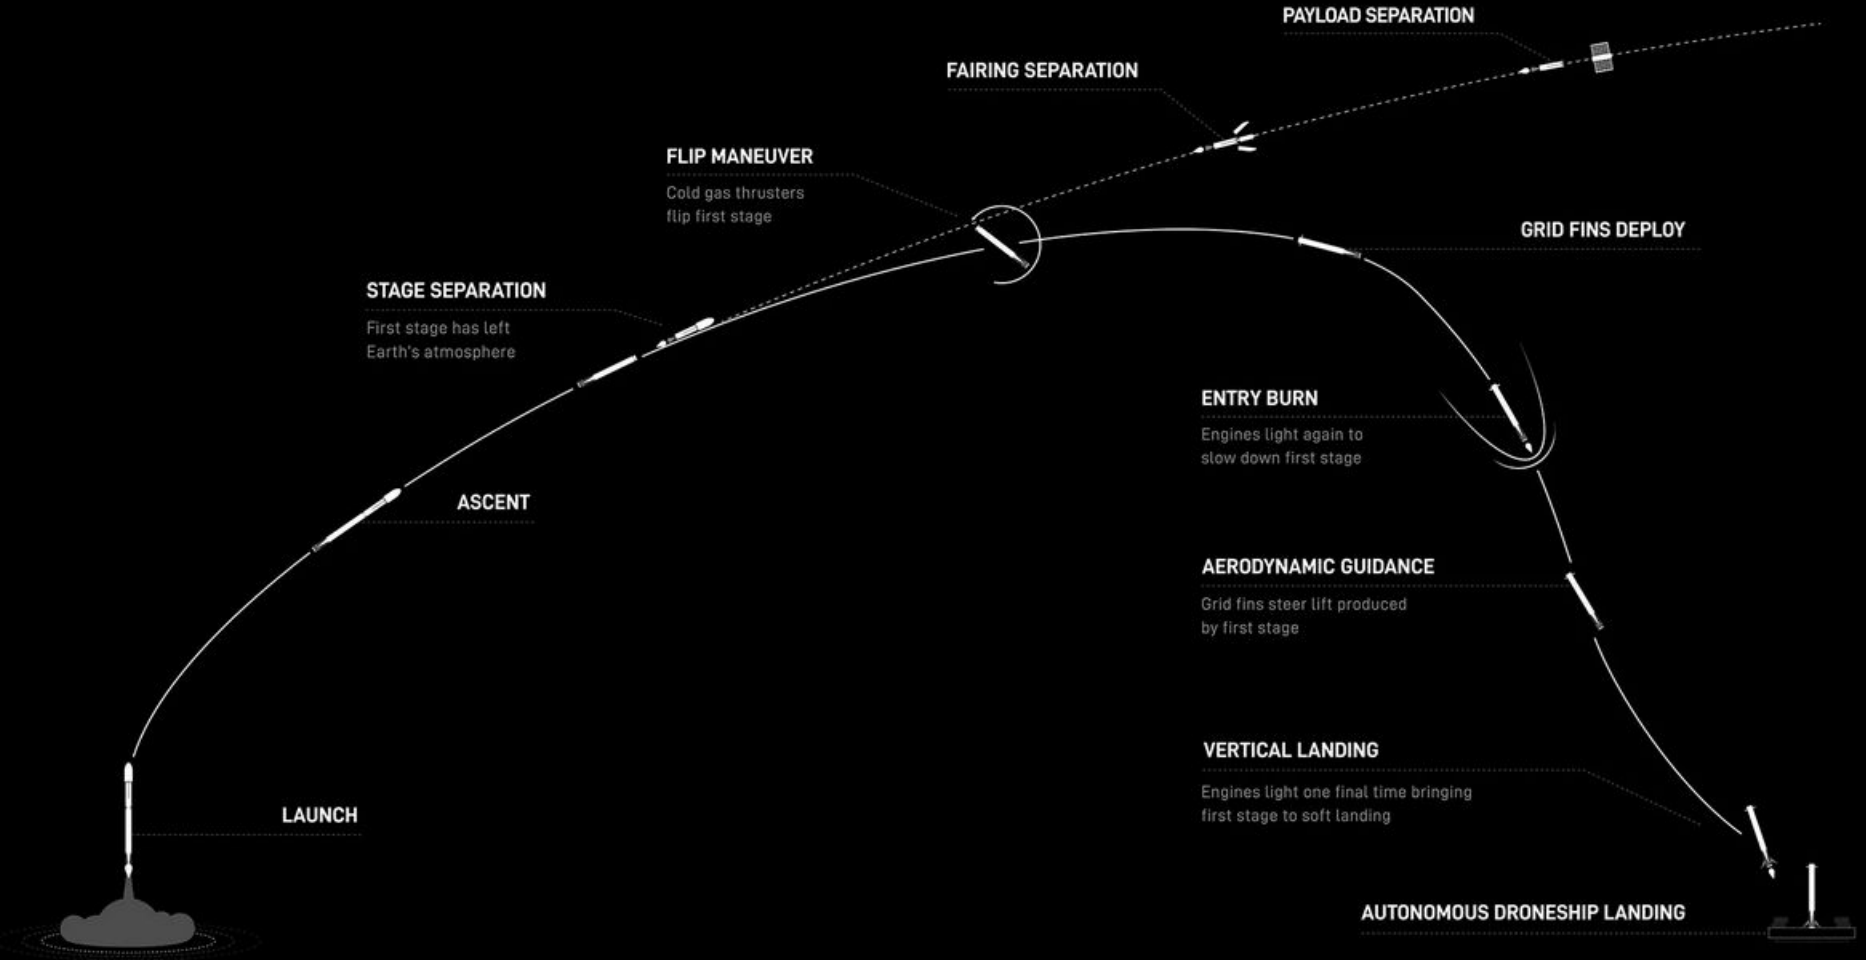

SpaceX is targeting Thursday, November 21 for a Falcon 9 launch of 24 **Starlink** satellites, to low-Earth orbit from Space Launch Complex 40 (SLC-40) at Cape Canaveral Space Force Station in Florida. Liftoff is targeted for 11:07 a.m. ET, with backup opportunities available until 2:49 p.m. ET. If needed, additional opportunities are also available on Friday, November 22, starting at 10:25 a.m. ET.

A live webcast of this mission will begin about five minutes prior to liftoff, which you can watch here and on **X @SpaceX**. You can also watch the webcast on the new X TV app.

This is the 20th flight for the first stage booster supporting this mission, which previously launched OneWeb 1, SES 18+19, Eutelsat HOTBIRD-F1, CRS-24, and 15 Starlink missions. Following stage separation, the first stage will land on the A Shortfall of Gravitas dronship, which will be stationed in the Atlantic Ocean.
