

UPCOMING LAUNCH

STARLINK MISSION

WATCH

SpaceX is targeting Sunday, December 8 for a Falcon 9 launch of 23 **Starlink** satellites, including 13 with **Direct to Cell** capabilities, to low-Earth orbit from Space Launch Complex 40 (SLC-40) at Cape Canaveral Space Force Station in Florida. Liftoff is targeted for 12:10 a.m. ET, with backup opportunities available until 4:10 a.m. ET. If needed, additional opportunities are also available that same day, starting at 11:42 p.m. ET.

A live webcast of this mission will begin about five minutes prior to liftoff, which you can watch here and on **X @SpaceX**. You can also watch the webcast on the new X TV app.

This is the second flight for the first stage booster supporting this mission, which previously launched GOES-U. Following stage separation, the first stage will land on the A Shortfall of Gravitas droneship, which will be stationed in the Atlantic Ocean.
