

UPCOMING LAUNCH

STARLINK MISSION

WATCH

SpaceX is targeting Wednesday, January 8 for a Falcon 9 launch of 21 **Starlink** satellites, including 13 with **Direct to Cell** capabilities, to low-Earth orbit from Launch Complex 39A (LC-39A) at NASA's Kennedy Space Center in Florida. Liftoff is targeted for 10:27 a.m. ET, with backup opportunities available until 2:17 p.m. ET. If needed, additional launch opportunities are also available on Thursday, January 9 starting at 9:59 a.m. ET.

A live webcast of this mission will begin about five minutes prior to liftoff, which you can watch here and on **X @SpaceX**. You can also watch the webcast on the new X TV app.

This is the third flight for the first stage booster supporting this mission, which previously launched GOES-U and a Starlink mission. Following stage separation, the first stage will land on the A Shortfall of Gravitas droneship, which will be stationed in the Atlantic Ocean.
