

UPCOMING LAUNCH

# STARLINK MISSION

WATCH

SpaceX is targeting Monday, February 3 for a Falcon 9 launch of 21 Starlink satellites, including 13 with Direct to Cell capabilities, to low-Earth orbit from Space Launch Complex 40 (SLC-40) at Cape Canaveral Space Force Station in Florida. Liftoff is targeted for 3:54 a.m. ET, with backup opportunities available until 7:54 a.m. ET. If needed, additional launch opportunities are also available Tuesday, February 4 starting at 3:26 a.m. ET.

A live webcast of this mission will begin about five minutes prior to liftoff, which you can watch here and on X @SpaceX. You can also watch the webcast on the new X TV app.

This is the 21st flight for the first stage booster supporting this mission, which previously launched OneWeb 1, SES 18+19, Eutelsat HOTBIRD-F1, CRS-24, and 16 Starlink missions. Following stage separation, the first stage will land on the Just Read the Instructions dronship, which will be stationed in the Atlantic Ocean.
