

UPCOMING LAUNCH

# STARLINK MISSION

WATCH

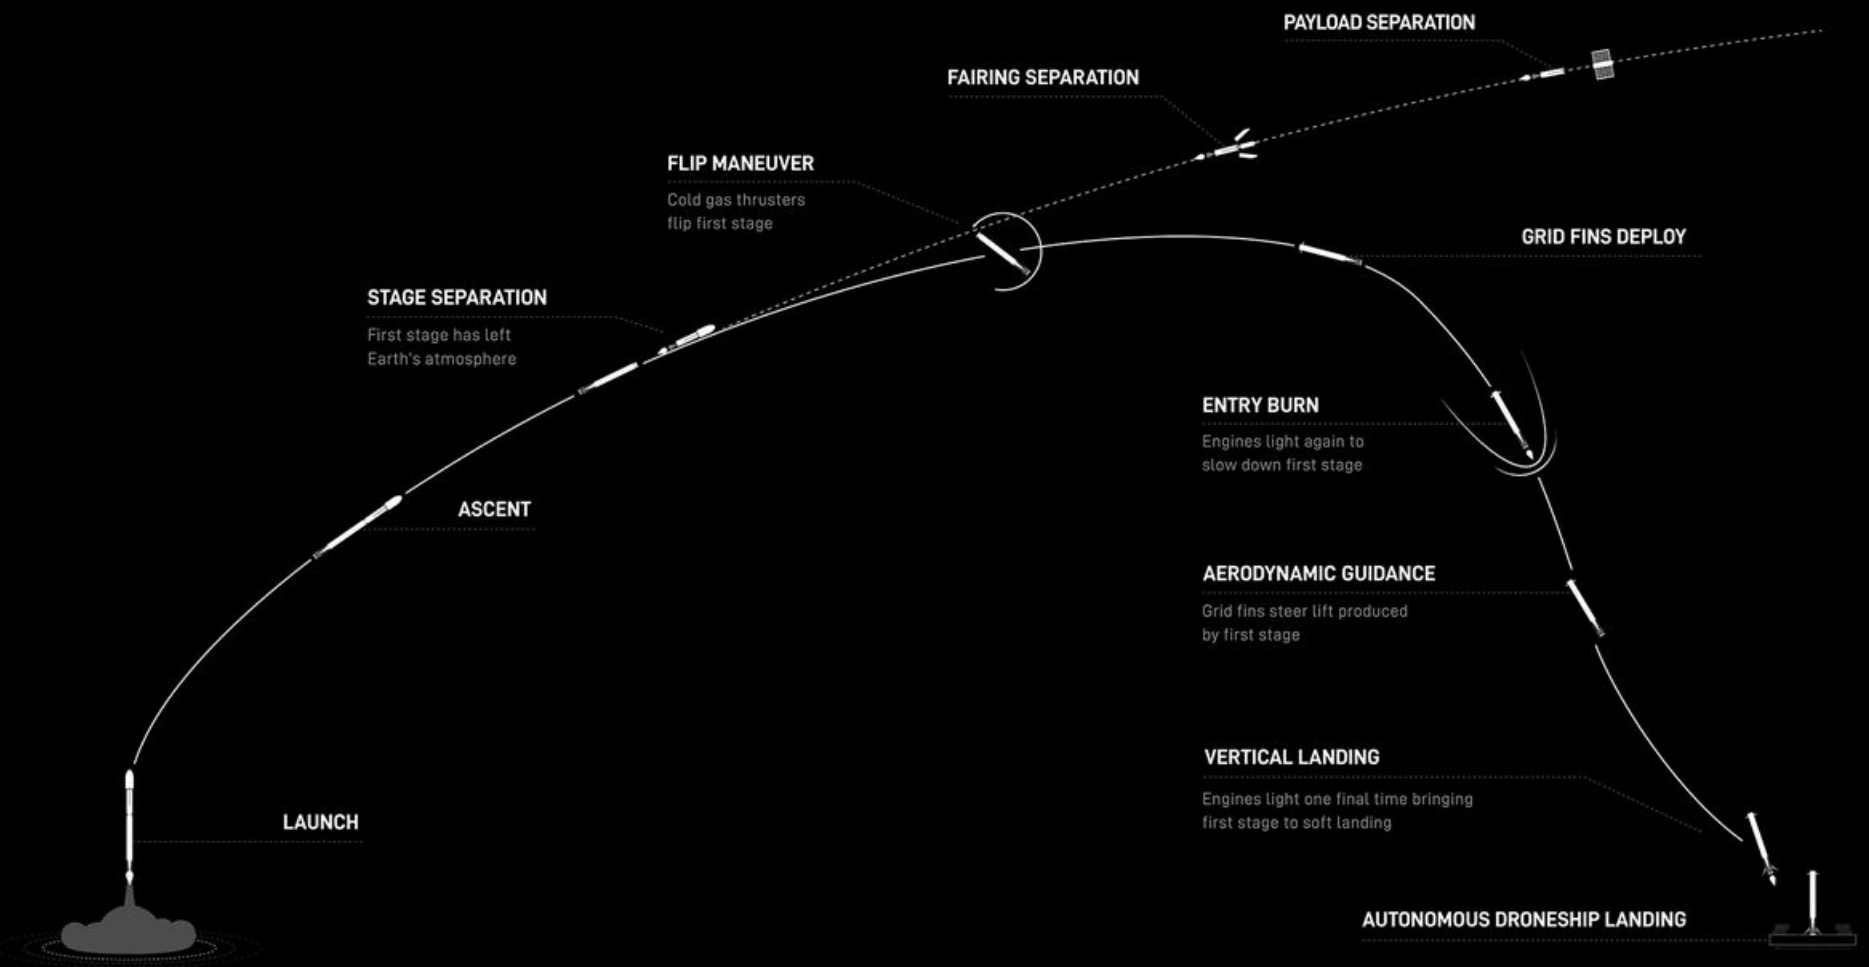

SpaceX is targeting Friday, August 2 for a Falcon 9 launch of 23 **Starlink** satellites to low-Earth orbit from Launch Complex 39A (LC-39A) at Kennedy Space Center in Florida. Liftoff is targeted for 12:19 a.m. ET, with backup opportunities available until 4:19 a.m. ET. If needed, additional opportunities are also available on Saturday, August 3 starting at 12:19 a.m. ET.

A live webcast of this mission will begin about five minutes prior to liftoff, which you can watch here and on **X @SpaceX**.

This is the 12th flight for the first stage booster supporting this mission, which previously launched Crew-6, 03b mPOWER, USSF-124, and eight Starlink missions. Following stage separation, the first stage will land on the A Shortfall of Gravitas dronship, which will be stationed in the Atlantic Ocean.
