

UPCOMING LAUNCH

STARLINK MISSION

WATCH

SpaceX is targeting Tuesday, October 29 for a Falcon 9 launch of 20 **Starlink** satellites, including 13 with **Direct to Cell** capabilities, to low-Earth orbit from Space Launch Complex 4 East (SLC-4E) at Vandenberg Space Force Base in California. Liftoff is targeted for 4:44 a.m. PT, with backup opportunities available until 5:40 a.m. PT. If needed, additional opportunities are also available on Wednesday, October 30 starting at 4:07 a.m. PT.

A live webcast of this mission will begin about five minutes prior to liftoff, which you can watch here and on **X @SpaceX**. You can also watch the webcast on the new X TV app.

This is the 14th flight for the first stage booster supporting this mission, which previously launched SDA-0A, Transporter-11, SARah-2, and 10 Starlink missions. Following stage separation, the first stage will land on the Of Course I Still Love You dronship, which will be stationed in the Pacific Ocean.
