# STARLINK MISSION

WATCH

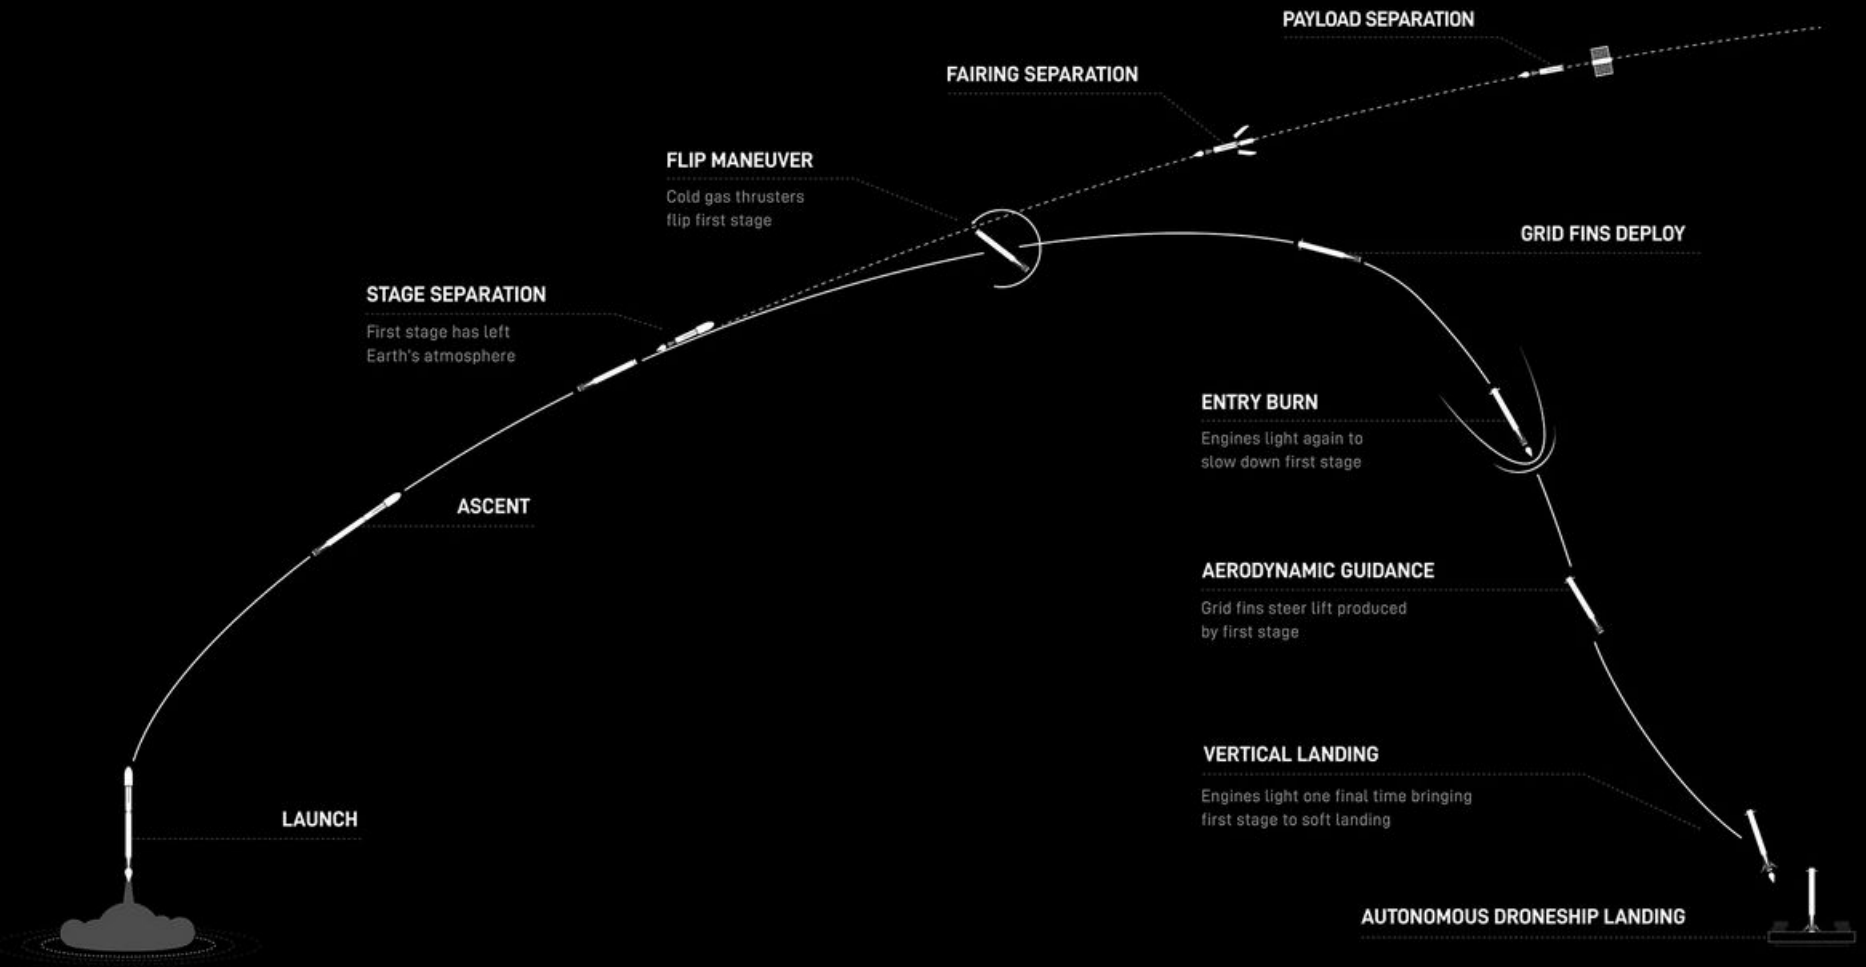

SpaceX is targeting Wednesday, November 6 for a Falcon 9 launch of 20 **Starlink** satellites, including 13 with **Direct to Cell** capabilities, to low-Earth orbit from Space Launch Complex 4 East (SLC-4E) at Vandenberg Space Force Base in California. Liftoff is targeted for 11:02 p.m. PT, with backup opportunities available until 2:12 a.m. PT. If needed, additional opportunities are also available on Friday, November 8 starting at 10:16 p.m. PT.

A live webcast of this mission will begin about five minutes prior to liftoff, which you can watch here and on **X @SpaceX**. You can also watch the webcast on the new X TV app.

This is the 11th flight for the first stage booster supporting this mission, which previously launched NASA Crew-7, CRS-29, NROL-186, EarthCARE, Transporter-10, PACE, and four Starlink missions. Following stage separation, the first stage will land on the Of Course I Still Love You droneship, which will be stationed in the Pacific Ocean.
